Pump Oil on February 18

The 295 mile pipe line of the Producers Transportation Co. running through the California oil fields to Port Harford will be completed on February 15.

This pipe line passes almost along the easterly line of the oil fields of the TEMPLOR RANCH OIL CO. and this company will commence to deliver its entire daily product direct to the pipe line. This will mean the early payment of dividends, and I expect the company will soon be able to pay at the rate of one cent a share monthly. It has also been planned to list the stock on the San Francisco Oil Exchange shortly after the company commences the delivery of oil. This will undoubtedly cause the stock to advance to probably 50c per share, or better. I have secured and offer a small block of the stock at 30c per share. I unhesitatingly recommend the purchase of these shares as an investment that should double and quadruple in value. Bear in mind that the investor who owns the largest profits is the one who invests when the price is low. Compare the stock of the TEMPLOR RANCH OIL CO. with every oil stock on the market today, and you will surely invest in the shares of this company. Do not delay, but send in your order NOW.

DEATH CAUSED CHIYO'S DELAY.

(Continued from Page 1.)

In addition to over a hundred Filipinos for the sugar plantations, there are sixty-one Japanese, seven Chinese and two Koreans for Honolulu.

Work of discharging over thirteen hundred tons of general oriental freight has been rushed, and it is expected that the Chiyo Maru will be ready to sail for San Francisco between 5 and 6 o'clock this evening. The vessel is taking on a large amount of fuel oil at this port, which may cause some delay in her departure for the Coast.

Through cargo for San Francisco includes several thousand bales of raw silk.

Between three and four hundred Asiatics are traveling towards the mainland.

From what can be learned on board, the Chiyo Maru, as well as the other Toyo Kisen Kaisha liners, will hereafter include Manila in their list of ports of call in the East.

It is understood that the Philippine capital will be made the terminus for the liners, which if carried into effect will place a crimp in the shipping business at Hongkong as far as this line is concerned.

Among the many little conveniences which make for the comfort of passengers traveling by the Chiyo Maru is a new bed for a Pacific liner in the form of a postoffice. Quarters have been provided for this department and a staff of competent officials are in charge of all details.

The vessel made a trial run upon arrival at Nagasaki, consequently did not call at Shanghai on the outward trip, the official trial taking place on January 13.

Pathe Freres, the great French moving-picture film makers, have sent a representative to Hawaii in the person of L. P. Bonvillian, who arrived by the Chiyo Maru. He will remain here for a month or more and proposes visiting the interesting spots throughout the group.

Of the fifteen cabin passengers who left the Chiyo Maru at Honolulu, a number are wives of United States naval officers connected with the Pacific squadron. They remain here awaiting the arrival of the "big eight."

W. H. Avery is the representative of the Toyo Kisen Kaisha, which operates the Chiyo and Tenyo Maru. He stands high in the councils of the great Japanese steamship company and is returning from an important conference with the directors at Tokyo. Mr. Avery is accompanied by Mrs. Avery, their destination being San Francisco.

Lieut.-Comdr. J. V. Cook of the U. S. Navy joined the vessel at Yokohama and is proceeding to the homeland.

CAPTAIN HARRIMAN, a pilot at the mouth of the Columbia River, and formerly a well-known shipmaster on the Pacific Coast, died recently at his home in Astoria, Ore., after a short illness brought on by blood poisoning. Captain Harriman was a native of Maine, 63 years old. In his early career he was engaged in the coasting trade. Later he was a pilot and tugboat master on Puget Sound. At one time he was captain of the Columbia River lightship.

Big Kite is a flying AD.

Flying from Atkinson park in Kaunakoa at a height of a half mile is a gigantic kite. The kite measures eight feet in height and is five feet wide. It was placed in its present position by Will Kerr of L. B. Kerr & Co., and he says that it was anything but easy to control the kite until it reached an altitude free from the interference of houses, wires and trees.

The purpose of the kite is to advertise the Walk-Over shoe, for which it carries an advertisement on both sides. From the attention the kite is attracting it is filling its purpose of securing publicity for this popular shoe.
